

Universal wireless one-channel dimmer, single-pole, for flush mounting

The universal wireless one-channel dimmer (single-pole) is suitable for flush mounting and may only be used to wirelessly switch and dim lights up to a maximum of 250 W. You can also directly connect a fixed NO push button to this dimmer. With a wireless push button or a hand-held transmitter (one- or two-button control) connected to the dimmer, the lighting is always gradually switched on and off and dimmed up and down. To switch or to dim the lighting locally, you can also connect a fixed NO push button to the dimmer. The integrated electronic short-circuit, overload and overheating protection guarantees maximum safety during use. The dimmer may not be used to switch or to dim electric motors.
