

# LED strip on roll with 36 RGB LEDs/m

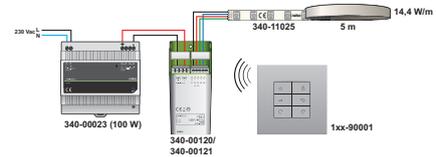

The vivid colours of the RGB LEDs create varied moods in the interior. The LED strip is sold on a 5 m roll. The LED strip can be cut every 16,7 cm, at the markings to install the desired length. The adhesive tape on the back of the LED strip ensures easy mounting. To easily select and dim the colours and to start a colour loop, you use this product in combination with an Wireless 4-channel constant voltage controller (410-00121) and an RGB(W) wall control in 4-button mode (article numbers 410-00002 + xxx-90002)

LED strip on roll with 36 RGB LEDs/m. The LEDs provide the optimum atmosphere with their excellent colour rendition and light output. The LED strip is sold in a 5 m roll and can be cut to the required length for installation along the dotted lines. The adhesive tape on the back of the LED strip makes it easy to mount.

- colour: red: 620 - 630 nm  
green: 515 - 525 nm  
blue: 465 - 475 nm
- Colour rendition index (CRI) Ra: > 80
- Number of leds: 36 RGB LEDs per metre
- Colour temperature: RGB
- Cutting distance: cutting interval: 16.7 cm
- LED format: 5050
- Power consumption: 8.64 W per metre
- Input voltage: 24 Vdc  $\pm$  10 %
- Protection degree: IP20
- Dimensions (HxWxD): 10 x 5000 mm
- Marking: CE
