## Belgian quality, pure design

Innovation, design and ease of use. Those are the cornerstones for Niko's product development. **Intelligent solutions** increase your **comfort** and **ease of use**. So you know within seconds which button commands which device. The sleek shapes and refined details of our switching material are your perfect partners in making a **design statement.** Besides, you can't beat **Belgian quality**.

### Timeless and sustainable

The Niko ranges give you a **timeless design**, carried out in **durable materials.** You choose the range that best matches your style. Fancy something new after a few years? Easy: just replace the flush surround plates with new finishes and colours. The universal flush-mounting mechanism goes with any finish in Niko Pure, Niko Intense or Niko Original. Combined with the surface-mounting kit, this switching material can also be used for walls. Finally, there is Niko Hydro, specifically designed to withstand demanding and damp environments.

### Endless combinations

Combine the colours of the surround plates and devices to your liking. You hold all the cards, even when it comes to the smallest detail. Your choices result in perfectly matching socket outlets, switches, dimmers and media connections. Whether you go for a single combination throughout your home, or different ones in every room.

### 4-year warranty

The legal warranty period for switching material is 2 years. But with Niko you go for the best. Every product we make, is thoroughly inspected at every step in the production process. That is why we give you a **4-year warranty.** On all our products.

# Your home, your style

Contemporary, retro or industrial: whichever style you choose, you want your socket outlets, switches, media connections and other functions to be perfectly aligned. That is why with Niko Pure, Niko Intense en Niko Original we offer you a choice between 3 switching material series.
# Niko Pure

Do you love **ultra sleek design** in timeless materials? Then you'll love Niko Pure. A series made from special materials such as bamboo, stainless steel, Bakelite and Plexiglass. Your guarantee of an elegant and sustainable finish.

# Niko Pure dark bamboo
## The trendy switch in a timeless design

Niko is launching a new finish in Niko Pure, a design that has already been doing well for years. A colour that fits perfectly with the interior trends for 2018: Niko Pure dark bamboo.

**Real, hand-crafted bamboo**

Niko Pure dark bamboo is made from real, sustainable bamboo. Each flush surround plate has an individual, fine-fibre structure, which feels warm and soft to the touch. No two products are the same. Every flush surround plate is individually hand-crafted. Dark bamboo offers you a real piece of craftsmanship for your wall.

**Made for darker, more luxurious interiors**

2018 is the year of darker shades, such as brown, midnight blue and burgundy. Alternating matt and glossy finishings will define your interior. A rougher finish combines beautifully with the polished shine of metal and the power of deep-veined marble. In today's world of mass production, you can still cherish the unique character of natural, hand-crafted materials. Exotic shades will give your interior that extra bit of class.

**2 expressive variants**

Niko Pure dark bamboo is available in 2 versions. Choose either a golden or an anthracite grey finish for the switch itself or the socket outlet mechanism.
