

DIN rail power supply for LED strips, 24 Vdc - 60 W

The 60 W power supply is suitable for powering LEDs and is designed for DIN rail mounting. The power supply is equipped with a primary input and four secondary terminals to connect two loads. Usage of screw terminals, both at primary and at secondary side. The output power range is adjustable. In compliance with the European directives for EMC and safety.

Modular power supply 24 V DC, 60 W

This power supply is suitable for powering LEDs and is designed for DIN-rail mounting. It has a power supply of 60 W. This power supply conforms to the European directive for EMC and safety.

Modular power supply 24 V DC, 60 W.

- Maximum load: 60 W
- Primary wire connection: double primary terminal connection: 1 x 2.5 mm² per screw terminal
- Secondary wire connection: 4-fold secondary terminal connection: 1 x 2.5 mm² or 2 x 1.5 mm² per screw terminal
- Protection degree: IP20
- Safety protections: self-resetting, built-in protection against short-circuit, overload and overheating
- Protection class: Class II device: SELV (safety extra low voltage), independent device
- Usage: for indoor use only
- Dimensions (HxWxD): 90 x 52.5 x 55 mm
- Marking: CE
