

# Twofold faceplate, vertical 60 mm centre distance, for a double switch and a socket outlet function, Niko Rocker alu blue grey brushed

226-56258

4 year warranty

The Niko Rocker twofold vertically oriented faceplate clicks onto a double switch and a socket outlet function that have been vertically installed on top of each other with a centre distance of 60 mm. The faceplate combines with any available Niko Rocker set for double switch function and Niko Rocker and Niko Toggle socket outlet finishing set. It consists of an upper frame, light guide and lower frame that are mechanically interconnected. The upper frame is made of anodised brushed aluminium (alu blue grey). The anodisation process may result in slight colour differences. The lower frame is made of dark grey polycarbonate (PC) + acrylic-styrene-acrylate (ASA), blue grey coated. The upper frame is 6 mm thick and the lower frame 2 mm. Niko recommends a design combination with a finishing set in the following colour: alu blue grey for Niko Rocker and Niko Toggle finishing sets and blue grey coated for other finishing sets.

- Exclusive materials
- Authentic vintage design
- Belgian design & craftsmanship
- Design matches Niko Pure portfolio
- Proven Niko quality
- Unique illuminated switch design (by adding feedback LED)
- Designed to fit the standard socket outlet base

## Technical data

Twofold faceplate, vertical 60 mm centre distance, for a double switch and a socket outlet function, Niko Rocker alu blue grey brushed.

- Double faceplate for two switches.
- Colour: alu black (approximately NCS S 8005 - R50B, RAL 000 20 00)
