

Threefold faceplate, horizontal 71 mm centre distance, for a single and a double switch function and a socket outlet function, Niko Toggle alu black brushed

224-57718

4 year warranty

The Niko Toggle threefold horizontally oriented faceplate clicks onto a single and a double switch function and a socket outlet function that have been horizontally installed next to each other with a centre distance of 71 mm. The faceplate combines with any available Niko Toggle for single and double switch functions and and Niko Rocker and Niko Toggle socket outlet finishing set. It consists of an upper frame, light guide and lower frame that are mechanically interconnected. The upper frame is made of anodised brushed aluminium (alu black). The anodisation process may result in slight colour differences. The lower frame is made of dark grey polycarbonate (PC) + acrylic-styrene-acrylate (ASA), black coated. The upper frame is 6 mm thick and the lower frame 2 mm.

Niko recommends a design combination with a finishing set in the following colour: alu black for Niko Rocker and Niko Toggle finishing sets and black coated for other finishing sets.

- Exclusive materials
- Authentic vintage design
- Belgian design & craftsmanship
- Design matches Niko Pure portfolio
- Proven Niko quality
- Unique illuminated switch design (by adding feedback LED)
- Designed to fit the standard socket outlet base

Technical data

Threefold faceplate, horizontal 71 mm centre distance, for a single and a double switch function and a socket outlet function, Niko Toggle alu black brushed.

- Threefold faceplate for three switches.
