Adaptor 4.2 is intended for a Niko double data outlet.

Tekniske data

Double adaptor 4 for data outlet(s)

The adaptor has the indelible engraving 4.2 on the front and back. Suitable for integrating 2 Niko outlets. The outlets are clicked into the adaptor along the back. The adaptor is made of dark grey PC+ASA, complies with a filament test of 650°C and is halogen-free. On each of its 4 corners, the base is equipped with studs that ensure that the central plate is perfectly positioned in relation to the base. The adaptor is equipped with snap hooks on the right and left sides that hold the central plate in place. The adaptor can be clicked onto a mounting frame 45x45mm, a trunking system with a 45 mm cover height or onto an empty Mini-Patch distribution board with a 45x45 mm opening and is finished with a central plate for 2 outlets (with or without a transparent text field). Dimensions adaptor 4.2: 45x45mm

- Dimensioner (HxBxD): 45 x 45 x 17.7 mm
- Vandalklasse: Kombinationen af en base, afdækning og en ramme har en vandalklasse på IK06
- Godkendelse: CE
