

# Audio module for modular external unit

## Function description

The audio module makes it possible to activate a door call, have a conversation and open the door. The module is made of black anodised aluminium.

The audio module is usually used in combination with the display module (10-362).

## Technical data

Reference number	10-360
Dimensions	105 x 105 x 27 mm (HxWxD)
Finishing colour, material	black anodized aluminium
Vandal proof	yes
Input current in standby	I(a) = 0.2 mA, I(P) = 4 mA
Max. input current	I(Pmax) = 13.5 mA
Display	160 x 104 pixels (fully graphic, monochrome)
Wiring	3-wired
Extra terminals	yes
Protection degree	IP44
Ambient temperature	-25 °C to +55 °C
Marking	CE marking
Conversation mode	hands-free conversation (standard), full duplex conversation possible
Direct dialling	possible (in combination with 10-850)
Error detection and indication	yes
Memory	removable EEPROM memory
Configuration	Niko Configuration Software for access control
