

Niko dimmer switch for Philips Hue

niko
Illuminating ideas.

A wireless dimmer switch for connected lighting:

Philips Hue and Niko join forces

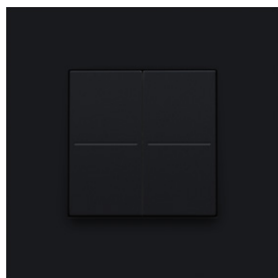

The partnership between Niko and Philips Hue is founded on a quality guarantee and the support of new technologies and open ecosystems. Niko therefore becomes the central platform with which to easily control other ecosystems. Whether it's a matter of wanting to turn smart lighting on or off, activate atmospheres or dim smart lights, this wireless switch allows you to do it all.

The wireless Niko switch can also be used to control the smart and architectural lighting from Modular. Design and quality incarnate.

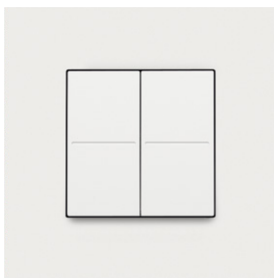

Advantages of the Niko dimmer switch:

- add to an existing installation without drilling or channelling
- no wires or batteries
- simple to programme via the Philips Hue app in a number of ways:
 - activate 4 favourite light settings
 - can be used as a dimmer to dim your Philips Hue lighting
 - combine your 2 favourite light settings with the dim function
- requires a connection with Philips Hue Bridge
- possible to connect up to 25 Niko dimmer switches to 1 Philips Hue Bridge
- available in all Niko finishings

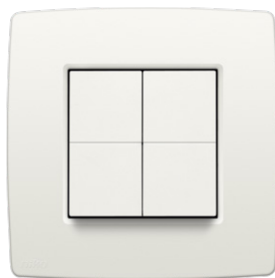

4 year
warranty

Niko designs electr(on)ic solutions to enhance buildings to better suit the needs of the people who live and work in them. This is achieved by using less energy, improving lighting comfort and safety and making sure all applications work together seamlessly. Buildings with Niko solutions are more efficient, controllable from a distance and interact within larger ecosystems. Niko is a Belgian family business from Sint-Niklaas with 700 employees and 10 European branches.

At Niko, there is one question which keeps us busy every day: "How can we enhance buildings to better suit your needs?"
